

**Dimensions** 

## Summary

The NDAA-compliant Compressor<sup>™</sup> UHDoC to IP signal encoder converts up to 16 HD-Analog, HD-TVI, HD-CVI and CVBS signals into IP video streams at up to 4K resolution. Fully integrated with DW Spectrum<sup>®</sup> IPVMS, the DW-ENC4K16 is an ideal addition for applications looking to upgrade their existing analog infrastructure, maximizing their ROI, to the unmatched performance and ease of use of IP video management without a complete system replacement.

## Features

- The most cost-effective path to IP
- Support for HD-Analog, HD-TVI, HD-CVI and CVBS signals increases compatibility with multiple analog signal technologies.
- Enjoy the benefits of IP monitoring by connecting your analog cameras to DW Spectrum.
- Convert your analog signals into IP video streams at up to 4K resolution for a hybrid monitoring solution.
- Local video output for system configuration and local display.
- Simultaneous streaming and multiple codec options for smart bandwidth management.
- Seamless integration and control with DW Spectrum IPVMS (requires DW-SPCP16LSC016 or DW-SPCP04LSC004 license. Sold separately).
- Two-way audio through DW Spectrum IPVMS for direct communication between the monitoring station and the camera's location.
- Control the camera's OSD and PTZ via the same coaxial cable (UTC) for simple installation and remote camera control.
- Framerate and bandwidth control help conserve usage and reduce network load.
- Alarm sensor input and relay output for access control integration (under development).
- Event notifications alert operators and system owners in real time to reduce response time.
- NDAA-compliant for federal and government projects.

## Accessories (included)

DW-G419RE 19" rack mount ears

## Specifications

Video input	Signal technology	HD over Coax® technology with HD-Analog, HD-TVI, HD-CVI and CVBS up to 960H
	Signal type	4K at 15fps, 5MP at 20fps, 4MP, 2.1MP/1080p, 960H, D1 at 30fps
	CH#	16CH BNC input
Video output	Outputs	True HD, VGA, BNC (1.0Vp-p; 75Ω)
	Resolutions	True HD: 3840 × 2160, 1920 × 1080, 1280 × 1024 VGA: 1920 × 1080, 1280 × 1024 BNC: CVBS, 960H
Display mode (local)		Local: 1, 4, 8, 16 / Web clinet: 1, 4
Compression		H.265, H.264
PERFORM	ANCE	
Interface	Audio in and out	8 RCA input / 1 RCA output (600 $\Omega$ )
	Audio codec	G.711 (U/A)
	Alarm in and out	16 alarm inputs / 4 alarm outputs (under development
	Serial (RS485, USB,	1x USB 3.0, 1x USB 2.0, 1 RS485 port for PTZ support
	UTC)	PTZ control via Coax (HD-Analog / HD-TVI)
Features	Motion detection	Yes
	Privacy masks	Yes (up to 4 masks per channel)
	Alarm management	Locally and via DW Spectrum® IPVMS. Motion detection, sensor and alarm activation, video loss, system start and user login
	Notifications	Notifications via email, local popup display, sensor and alarm output (under deelopment), buzzer, push text, FTP, snapshot, PTZ preset activation
	Security	HTTP, multi-user authority
NETWORK	-	
Network connection		1x RJ45 10/100/1000 Base-T
