

Video Management Anywhere, Anytime.

DW spectrum[®]
IPVMS

Complete Scalable Video Management

Built for Users.[™]

Apps for every operating system. **Cloud-enabled.**

DW Spectrum[®] IPVMS supports all major operating systems with the ability to link any system to DW Cloud[™] for fast, reliable remote access.

Automated. Intuitive. **Built for Users.**

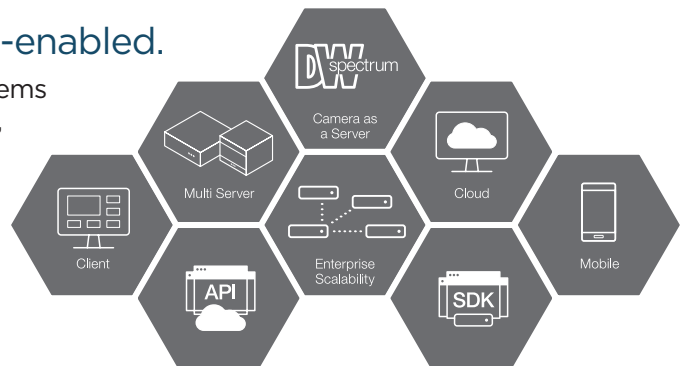

Installs in seconds configures in minutes. Instantly usable for novices, operators, integrators, or developers.

Auto-discover devices from hundreds of manufacturers.

Discover and manage thousands of compatible video, audio and I/O devices. Set up a new system or replace any existing VMS in minutes.

Open for developers. **Integrate anything.**

With an open Restful API, a suite of SDK's, and integrator-friendly tools like a built-in API generator DW Spectrum[®] IPVMS users can quickly integrate any 3rd party device or system.

Simple. Reliable. Customizable.

DW Spectrum® IPVMS is an endlessly customizable IP Video Management platform that gives users the ability to create tailored networked video solutions for any type of project, for use by anyone, on any device.

1 Open architecture / cross platform.

Open Architecture

- Now with DW Cloud™, connect from anywhere to share access instantly.
- Now with even more device support.
- Support of thousands of devices including cameras, encoders and I/O modules from leading manufacturers.
- Support cameras at every resolution.
- Built-in API allowing managed video to be accessed and reviewed by any willing 3rd party device.

Cross-Platform

- DW Spectrum's recording engine runs on Windows® and Linux® Operating Systems.
- Client software is Windows, Linux, or Mac® compatible.
- Mobile apps are iOS® and Android® compatible.
- Web client is compatible with Google Chrome®, Firefox®, Safari® and Internet Explorer®.

2 Interface is dramatically easier to use.

Highly refined GUI

Viewing Video

- Seamless transitions.
- Customizable camera layouts.
- Zoom, create regions of interest and enhance images.

Searching Video

- Fastest video search in the industry.
- Users can bookmark specific video segments.

Downloading Video

- Multiple download options.
- Storage backup.

System Programming

- Intelligent high definition multi-streaming video management with no user programming required.
- Server and system programming from a single interface.

Advanced Features

- Interactive mapping, alarms, events/notifications, universal fisheye de-warping from a single interface.
- External alarm events can be delivered right from the IP camera or via network I/O modules.

3 Enterprise features are standard.

- Custom User Role Management: create custom roles and share groups of hardware and layouts.
- Multi-Server and Centralized Management
- Health Monitor: provides real-time insight of camera and server status.
- Video Storage Analytic: insight into storage requirements each camera is using in real-time and forecasts the impact of additional storage.
- Minimize Video Recording Loss: includes failover to protect video recordings from hardware failures and network interruptions.
- LDAP/Active Directory integration for enterprise-wide user management is standard.
- Video Wall users can create and remotely manage remote monitors with just a few clicks.

4 Part of a complete end-to-end IP solution.

Although DW Spectrum IPVMS is open to be deployed on a vast number of solutions. It is also part of DW's complete end-to-end IP solution, with Blackjack® servers and Blackjack® NAS storage solutions.

5 Lifetime upgrades included/no annual agreements.

While other companies require annual maintenance agreements, DW Spectrum IPVMS system upgrades are always available free of charge.

6 Scalable from one to thousands of devices.

The unified user experience for applications requiring one or thousands of cameras is deployed at thousands of locations worldwide, making DW Spectrum the industry's fastest-growing VMS on the market today.

You choose your devices.

DW Spectrum® has applications for all major operating systems so our users are not limited by what device or operating system they choose to use on their desktops, mobile devices, rack mount servers, or even low-powered embedded devices.

 Server	 Client	 Cloud	 Mobile
A media server responsible for discovering, connecting to, and managing system devices and data.	A rich media player with a flexible GRID interface designed for connection to and managing DW Spectrum systems.	A cloud-based service that enables simple, centralized remote access and insight into any DW Spectrum system.	A mobile app designed for viewing DW Spectrum system video and events while on the go.

HOW IT WORKS

Smartphone or tablet. Smart video.

DW Spectrum Mobile for iOS and Android smartphones and tablets provides fast, dependable mobile access to any DW Spectrum IPVMS system.

View, playback and capture still images from a surveillance system on your smartphone and tablet.

Connect. View. Search. Control.

DW Spectrum Mobile - with a custom-developed media player - is a low-latency, user-friendly mobile application for iOS and Android devices that allows users to connect to, view, search, and control IP cameras over wifi or data networks.

SUPPORTED OPERATING SYSTEM:
